

CS 303 - Lab 8
November 8, 2019 (take home only)
Maximum Points: 30

Note:

- Submission deadline - **11:45 PM, November 14, 2019**.
- Submit the source code file(s) on Moodle. You will get only one opportunity to submit, so ensure that you are submitting the intended files.

—

Do programming project 3 from chapter 6 (Synchronization) of the textbook - *Operating System Concepts* by Silberschatz, Gagne and Galvin, **Ninth Edition**". The project is titled - "**The Producer Consumer Problem**", and is given on pages 303 - 305. Read all instructions carefully. Note that you need to solve the problem using Pthreads, and that your solution must work on a Linux system.
